Board of Directors, Columbus A/S

Appendix 1: Election of members to the Board of Directors

Election of members to the Board of Directors and recruitment criteria

Pursuant to Columbus A/S' Articles of Associations, the Board of Directors must consist of 3-7 members to be elected by the general meeting for a term of one year.

When nominating new Board members, management experience, professional and financial competencies needed to ensure that the Board has the necessary competencies to be able to manage the interests of the Company and thereby the shareholders are carefully assessed.

Besides competencies and qualification, new candidates are selected on the basis of criteria such as the need for seniority, renewal and diversity.

The Company's Articles of Association do not include restrictions concerning the number of times a member is allowed to be re-elected to the Board of Directors. Seniority in itself is not a crucial criterion, but the Board of Directors finds that long seniority and thereby extensive experience for part of the Board members is highly beneficial to the company. Seniority combined with continuous renewal ensure a broad-based composition of the Board of Directors.

Gender, age and nationality are not qualifications alone, but are part of the total assessment of the competencies of a board candidate.

Information about proposed candidates

Below, competencies and directorships in other companies are described for each of the proposed candidates.

It is the Board of Director's assessment that the proposed candidates represent the necessary competencies in the Board of Directors to ensure that the size, composition and competencies of the Board of Directors is such that constructive discussions and efficient decision-making process can be ensured during Board meetings.
